

PRINCE Dr. K.VASUDEVAN COLLEGE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE, Affiliated to Anna University & ISO 9001:2015 Certified Institution)

Medavakkam-Mambakkam Main Road, Ponmar, Chennai-600127

OUR INSTITUTION' S PRIORITY

- STUDENT EMPOWERMENT AND SUSTAINABILITY

STUDENT EMPOWERMENT AND SUSTAINABILITY

Prince Dr. K. Vasudevan College of Engineering & Technology (PDKVCET) is affiliated to Anna University with the guidelines of AICTE and the curriculum is strictly adhered to the curriculum prescribed by Anna University for UG & PG courses of Engineering.

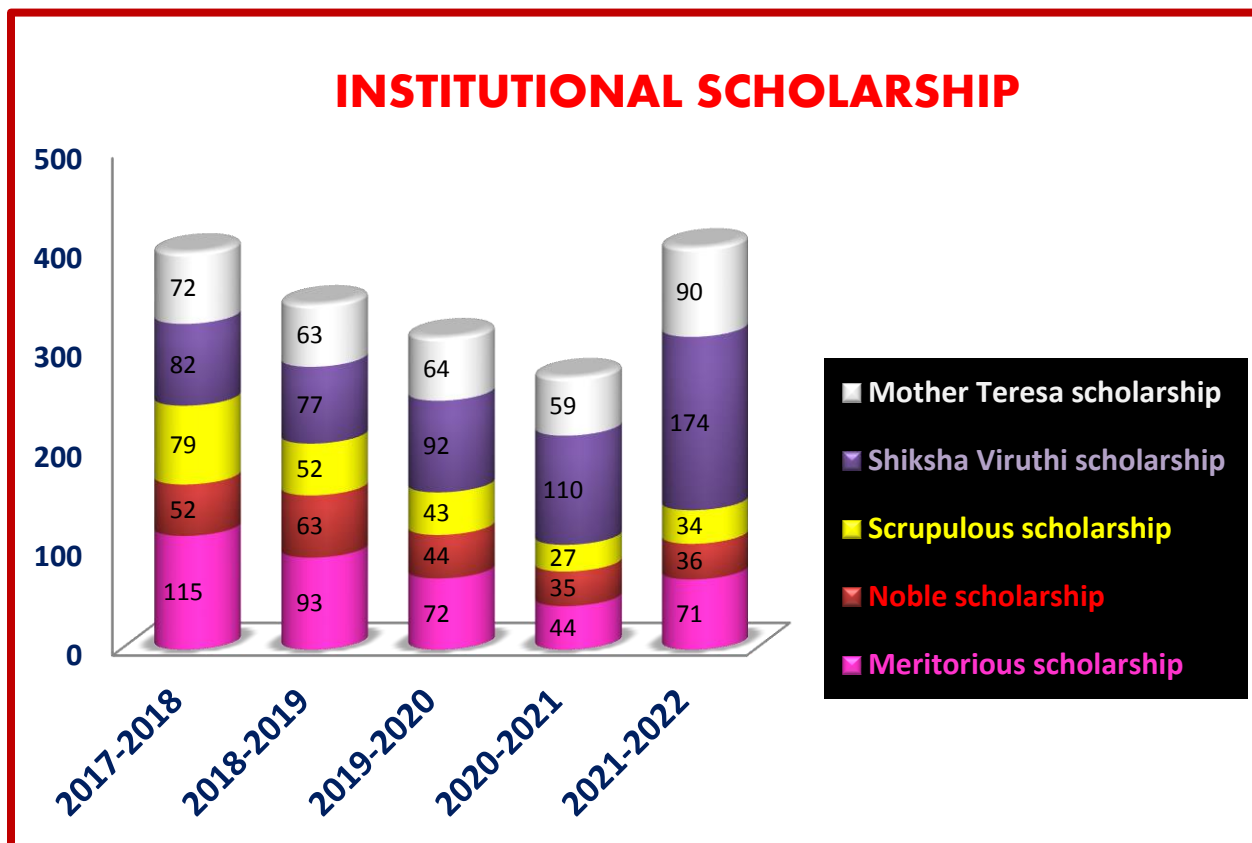

The Vision of the institution is all slanted towards the holistic development of the student community; who were the prime stakeholders of the institution undoubtedly. It is essential to mould the students for the betterment of their future. A sound and healthy mind is the prerequisite for acquiring knowledge and resorting to knowledge management effectively. In this context there is a profound need to mentor the students and we equip them to face the various hurdles of life and exude self confidence in their future endeavors. The college has working determinedly to grow professionalism and the sense of social responsibility among the students.

Today's teachers face an increasingly diversified group of students in terms of ability, need and support. In order to meet the need of all student learners, teachers are finding different pedagogical shifts for building the personalization and self-motivation at the heart of student empowerment.

OUR VISION

To emerge and rise as distinctive technical institution by creating the learners to meet the growing challenges of the industry and diverse societal needs of the world.

PDKVCET is the most ideal institution and most of the students are from economically poorer & also from rural areas. PDKVCET makes continual attempts to fulfill its social responsibility to rural students, primarily the institution has an influx of students belonging to different strata of society and more so the first generation learners, to pursue higher education and achieve greater success, both professionally and economically. The college's has been founded to offer career prospects for the area's rural residents. **All the students are benefited by the management scholarship based on their cutoff marks.**

"Engagement" is more about what you can do for your students.

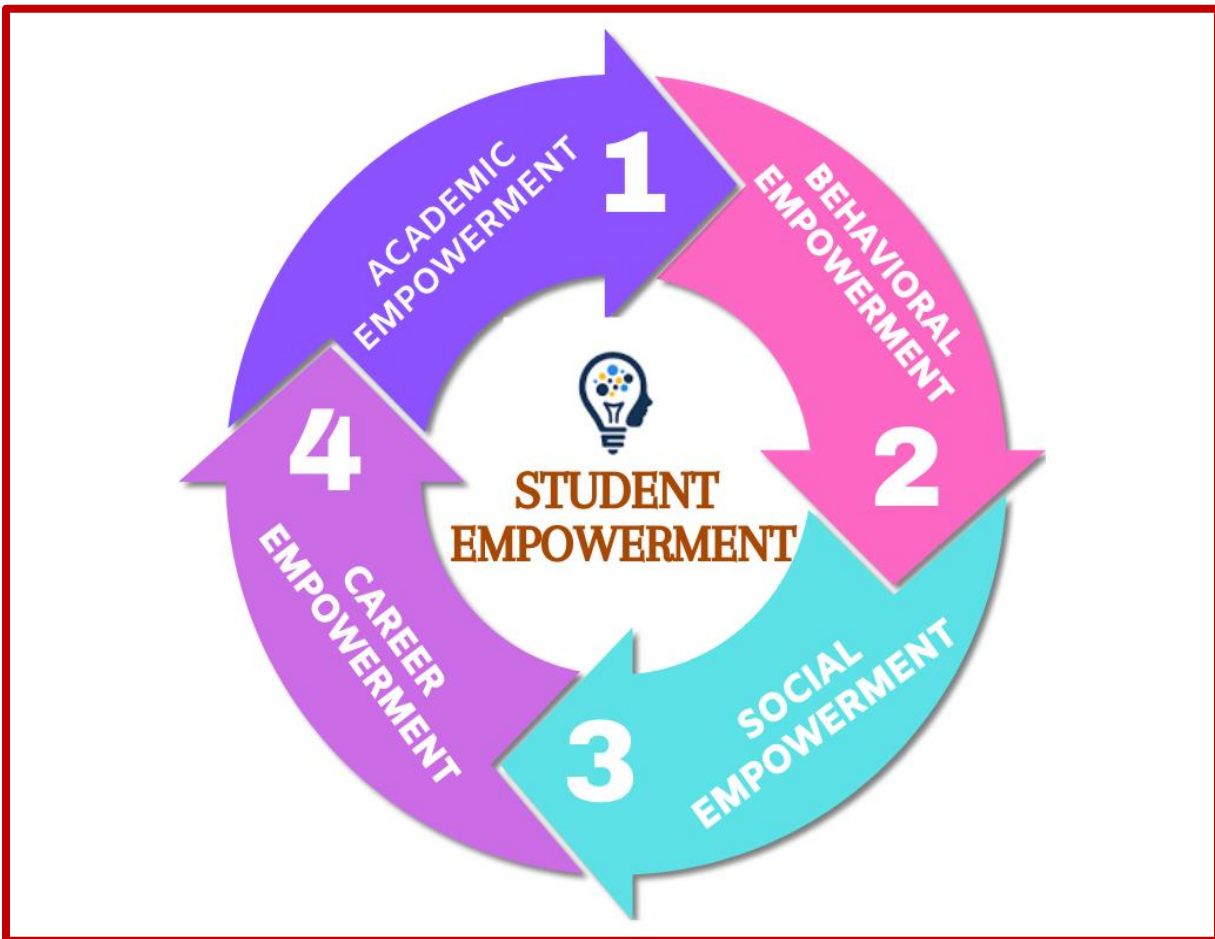

"Empowerment" is about helping students to figure out what they can do for themselves.

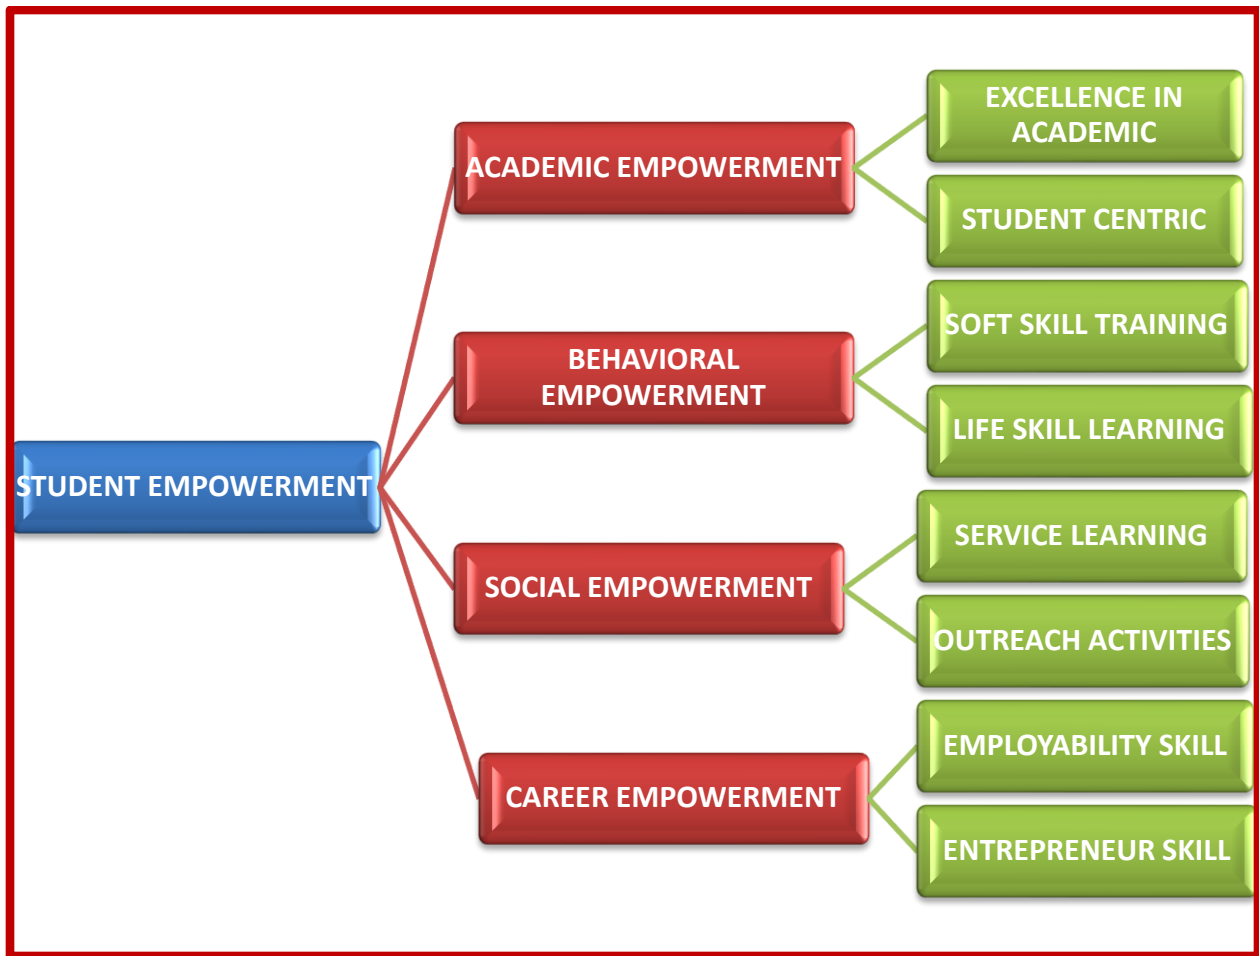

- GEORGE COUROS

The ultimate goal of PDKVCET is to empower students by developing the skills for life-long learning which helps to manage their careers. For the transformation of the Students from Engagement to Empowerment, PDKVCET has identified four crucial areas such as,

1. **Academic Empowerment**
2. **Behavioral Empowerment**
3. **Social Empowerment**
4. **Carrier empowerment**

This desperately helps to gain new knowledge and skills.

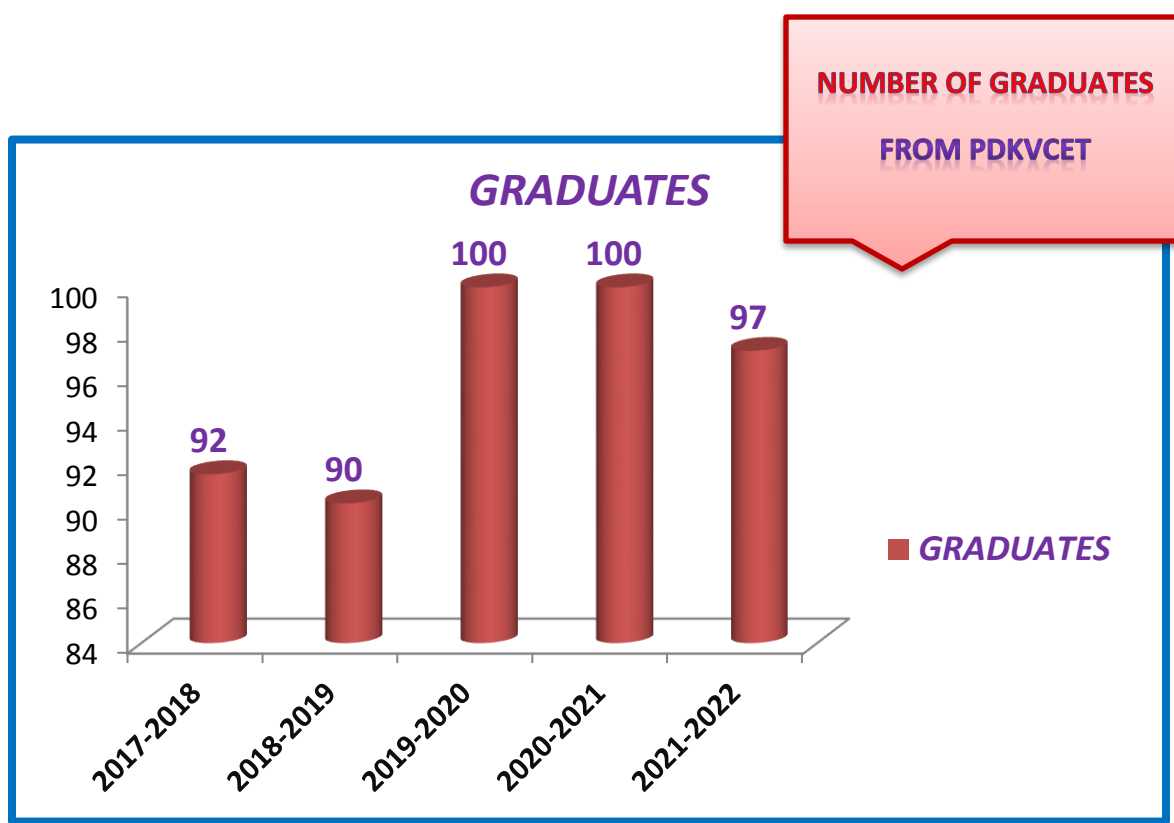

OUR MISSION

- ❖ To develop the institution as a “Centre of Excellence” offering engineering education to students at undergraduate and post-graduate degree levels through state-of-the-art technology on a par with international standards.
- ❖ To create and sustain a community of learning that sticks on to social, ethical, ecological, cultural and economic upliftment.
- ❖ To undertake research in socially relevant, scientific and technology oriented projects.

1.ACADEMIC EMPOWERMENT

1.1 Excellence in Academics

As the college is located in an area which economically and educationally backward comprising diverse groups of population, achievement of excellence is the most important mission of the college. By practicing certain missions in order to achieve the vision, the college is predominantly focusing on providing education to the learners of economically and socially backward community and to dispel the distresses of the learners of the remote villages of outreaching areas in receiving college education. To excel in academics, the institution has, interactive ICT enabled class rooms, IT facilities, well equipped and modernized laboratories with practice sessions with Proficient faculty members. PDKVCET follows a well-structured Choice Based Credit System with a focus on Outcome Based Education in accordance with Anna University Curriculum. The college has strong norms for discipline and keeps a keen eye on attendance, assignments, submissions and the like. The academic audit is conducted annually by the IQAC cell which promotes a healthy teaching-learning atmosphere.

1.2 Student Centric Methods

The Institutions make use of innovative teaching learning methodologies to enhance the learning experience of the students. The students receive a holistic education in training, Seminars, Workshops, Guest Lectures, Value Added Courses and Certificate Courses. The faculty makes use of ICT tools like Power point presentations, Google class room, Online content, outbound training, flipped class rooms and blended learning to enhance their knowledge.

Education for sustainable development and its teaching components are holism (the approach to the content) and pluralism (the approach to teaching) has been launched as the PDKVCET educational approach to support this aim. An education for Sustainable Development towards teaching and learning approaches has an effect on student sustainability.

2.BEHAVIORAL EMPOWERMENT

2.1 Soft Skill Training

Soft Skill training is working on communication abilities, personality traits, personal attributes, etc. which are significant professionally and socially. These skills assist students with a lot of things in the workplace. Soft skills play a significant role in the success and growth of the individual. It is vital for the students to be capable to communicate well with others as every profession and role consists of interacting with the colleagues, superiors, clients, and others. Students with good soft skills are also very adaptable to the new role and environment irrespective of the field or industry. Soft skill training helps them to improve their personal attributes along with communication abilities.

2.2 Life Skill Learning

Life skill education provides students with strategies to make healthy choices that contribute to a meaningful life. It brings forth the abilities that promote mental well-being and competence in young people as they face the realities of life. It helps the students to take positive actions to protect themselves and to promote healthy and meaningful social relationships. More specifically, studies demonstrate the link between positive mental health outcomes and curricular performance in the institution. Life skill strategies and techniques as problem-solving, critical thinking, effective communication skills, decision-making, creative thinking, interpersonal

relationship skills, self-awareness building skills, empathy, and coping with stress and emotions has been promoted. We support the development of life skills among our learners to enable them to function effectively in society.

Behavior sustainability has been an important part of education worldwide, aiming to foster pro-environmental behavior among young people. In environmental psychology there is strong cross-cultural and generalizable support for the relation between basic human values and pro-environmental attitudes and behaviors. Students' behaviors and attitudes become less environmentally friendly as they enter adolescence. To meet that challenge the institution has put an effect to ensure the students to behave in a more intense way.

3. SOCIAL EMPOWERMENT

OUR QUALITY POLICY

Imparting quality education through an outcome based curriculum on Continues Improvement, Research, Consultancy, Outreach, Innovation and Entrepreneurship by bench marking to achieve global standards of excellence.

3.1 Service Learning

Service-learning is a form of experiential education where learning occurs through a cycle of action and reflection as students work with others through a process of applying what they are learning to community problems, and at the same time, reflecting upon their experience as they seek to achieve real objectives for the community and deeper understanding for themselves. Students are participating in local community development activities through NSS/YRC/NCC/Rotract club units of the institution such as, visits to social welfare center's, cleaning campaigns, tree plantation programmes, eye, blood camp and the distribution of free food and clothing. Students can also learn about the harsh facts of life, acquire social skills and become responsible through these student-led programmes.

3.2 Outreach activities:

PDKVCET stands tall as one of the best institutions which involve it in offering services to the public through its extension services. The students of PDKVCET have been serving the society through various extension and outreach activities for the last 5 years. The activities are also conducted in collaboration with industries, communities and non-government organizations through the NSS, NCC, Youth Red Cross, Rotract, Social development clubs. Institution makes commendable contributions towards the development and upliftment of the people in the neighboring community. These services have made indelible marks in the lives of the common people. The student volunteers during the last five years have collaborated with NGOs, professional bodies and NGOs.

The increased globalization has made it important to educate through an approach which broadens the scope of education, to include both economic and social dimensions in addition to the academic excellence. To increase the social commitment among students the institution witnesses **Social Sustainability** in a perspective tends to prioritize human socioeconomic needs to the same extent as the education.

4. CAREER EMPOWERMENT

4.1 Heighten the Employability skill

PDKVCET has signed Memorandum of Understanding (MoUs) with more than 25 industries and institution. PDKVCET provides various training activities for the students through its Placement and Training Cell. The **Training & Placement Cell** guides the students to develop their ability to articulate their skills and domain knowledge to the prospective employers. Training module is designed to compete with the industry expectation.

Almost 84 % of the students are placed in reputed companies during the last five years. PDKVCET also motivates students to pursue higher education and helps them for the preparation of GATE, GRE, IELTS and all other competitive examinations. PDKVCET provide innumerable support and ample opportunities which help the students to develop their skills so that they can be able to meet the growing challenges of the industry as per the vision of the institution. Students become more expertise which ensures their employability.

Test Report Form

ACADEMIC

NOTE Admission to undergraduate and post graduate courses should be based on the ACADEMIC Reading and Writing Modules.
GENERAL TRAINING Reading and Writing Modules are *not* designed to test the full range of language skills required for academic purposes.
It is recommended that the candidate's language ability as indicated in this Test Report Form be re-assessed **after two years** from the date of the test.

4.2 Enrich the Entrepreneurship Skill by EDC & IIC

PDKVCET have organized Entrepreneurship Awareness Camps, Entrepreneurship Development Programs, Women Entrepreneurship Development Programs and Technology based Entrepreneurship Development Programme to augment and strengthen the entrepreneurship skills of the students. **Institution Innovation Council (IIC) and Entrepreneurship Development Cell (EDC) of PDKVCET** are functioning towards inspiring the students to kick start their dream start-ups through various competitions and sessions. The IIC and EDC invites knowledgeable and expertise speakers from various Government and non-Government organizations/institution. PDKVCET Alumni association organizes various sessions through alumni who share their knowledge and experience in innovation and entrepreneurship. This makes a lot of positive contribution in terms to fulfill the curriculum gap and placement.

To attain **Career Sustainability**, we prepares graduates for many jobs in fields like engineering, organizational consultancy, policy analysis, and research. A bachelor's builds a strong foundation in their specialization. Graduates also build skills through various activities like internships, industrial visits, and career guidance program etc., Four-year degree programs will teach the students to sustain in career where students conduct their own research and present their findings. Students can often pursue advanced coursework in a specialization that aligns with particular career goals.
